Schedule

Here is our schedule for the upcoming event. We've done our best to provide a good mix of topics and skill levels, we hope you'll find something of interest throughout the day. Our thanks to the speakers listed below for volunteering their time, we couldn't do it without them. If there are schedule changes we will make them here as they happen. We encourage you to check back a few days before the event just in case we have had to move one of your favorite sessions.

PowerShell	BI Analytics and Visualization	BI Architecture & Management	Cloud Database/Application Development & Deployment	Database & Application Development	Database Administration	Professional Development	Other
------------	--------------------------------	------------------------------	---	------------------------------------	-------------------------	--------------------------	-------

Schedule is subject to change.

Saturday, Jan 14, 2017 Conference Schedule

	S126	S128	S213	S260	S272	S270	S274	S275	S276	S279	S309	S314	S334	S305
30 AM - 09:30 AM		Registration for non-printed SPEEDPASS	SS2014/2016 In- Memory Tables Formula One	Performance Pitfalls from Code Reuse		Enterprise Machine Learning with R and SQL Server	The 20% of DAX That Gets You 80% of the Way There	Word Up: Text Mining in SQL	The PROCESS of Queries	Very Large Databases in your future	How to successfully virtualize critical SQL servers	Learn History from Temporal Tables	Performance Monitoring AlwaysOn	Many - to - Mar Multiple Calend in a Single Ana
		SQLSaturday	Performance	Andy Yun		Paco Gonzalez	Austin Senseman	Dave Mattingly	John Deardurff	Eric Peterson	Niran Even-Chen	Ameena Lalani	Availability Groups	Services Multidimensio
